PROFESSIONAL SUMMARY

Driven Software Developer and IT graduate with hands-on full-stack internship experience and a strong foundation in React, React Native, TypeScript, and cloud APIs. Proven track record leading software projects, resolving complex component logic, and building AI-integrated applications. Two-time Dean's List awardee with a commitment to clean code, systematic problem solving, and efficient UI/UX design.

SKILLS

- **Programming Languages:** TypeScript, JavaScript, Python, HTML, CSS
- **Mobile Development**: React Native, Expo
- **Web Development:** React.js, Tailwind CSS
- **Database Management:** Firebase Realtime Database, Firebase Authentication
- **APIs & Integrations:** Google Maps Platform (Maps SDK, Directions API), RESTful APIs
- **IoT & Hardware:** Raspberry Pi, Computer Vision (OpenCV), GPS Modules, Sensor Integration
- **Software & Tools:** Visual Studio Code, Git, GitHub, EAS Build (Expo Application Services), Google Cloud Console, Android Studio
- **Networking:** Dynamic Routing, Network Address Translation (NAT), Network Automation Basics, Quality Of Service (QoS), Security Threat Mitigation, Software Driven Networks, Virtualization, Wide Area Networks
- **Video/ Picture Edit:** VSDC, Photoshop, Canva
- **Vibe code/ prompt engineer:** AI-assisted creator who builds software or digital solutions through natural language instructions.
- **Office & productivity:** MS Office Suite (Word, Excel, PowerPoint, Outlook, Teams), Google Workspace (Docs, Sheets, Slides, Gmail), Figma, Slack, Canva, Excalidraw.
- **Work Ethic:** Time Management, Organization, Persistence, Teamwork, Leadership.
- **Time Management:** Excellent ability to prioritize tasks, manage schedules, and meet deadlines.
- **Digitally Literate:** Have both the technical and cognitive skills to find, evaluate, create, and communicate information using digital devices
- **Analytical & Problem-Solving:** Critical Thinking, Data Analysis, Root Cause Analysis, Decision-Making.

WORK EXPERIENCE

Fullstack Developer Intern | meldCX Corp **February 2026 - May 2026**

- Resolved front-end UI/UX defects and component bugs identified during QA testing to improve application stability.
- Refactored incorrect API routing and reworked component logic using React/TypeScript to ensure seamless data flow.
- Designed and deployed an internal GenAI project using modern AI tools to enhance workflow efficiency.
- Completed 486 practicum hours contributing directly to active development sprints.

FEATURED PROJECTS

Trackseat (Thesis Project) **https://trackseat-bd7c5.web.app**

- Engineered a real-time mobile application for efficient route tracking and system management.
- Integrated React Native, Expo, Google Maps APIs, and Firebase Realtime Database for live data synchronization.

CryptAI (Personal Project) **In Development**

- Building an AI-powered document storage app that categorizes files automatically and enables content summaries and semantic search via natural language prompts.

DreamDwell (Personal Project) **In Development**

- Architecting an AI web application using computer vision to analyze room images, recommend missing furniture, and render updated room concept designs.

EDUCATION & LEADERSHIP

Bachelor of Science in Information Technology **2021-2026**

University of Science and Technology of Southern Philippines (USTP)

- Honors: Two-time Dean's List Awardee (AY 2021–2022 | GPAs: 1.667 and 1.750)
- Leadership: IT Organization Working Committee Member & Academic Project Team Lead (2021–Present)
- Honored with a Certificate of Recognition for dedicated service and technical contributions to the IT organization.

CERTIFICATIONS

- CCNA: Enterprise Networking, Security, and Automation – Cisco Networking Academy (August 2024)
- Introductory & Marketing / Virtual Assistance – Virtual Success Academy (October 2021)
